Experience Summary

Mr. Sherrod is a current student at Texas State University, where he is studying Wildlife Biology with a minor in GIS. As an Environmental Specialist, he has participated in asbestos surveys, karst surveys, presence/absence surveys for various threatened or endangered (T/E) species including the golden-cheeked warbler, black-capped vireo, red-cockaded woodpecker, timber rattlesnake, Texas horned lizard, indigo snake, reticulated collared lizard, and the Texas tortoise. Mr. Sherrod also contributes to research, field work, and report writing for wetland determinations/delineations, Section 10(a) permitting, Phase I (ASTM Practice E 1527-05) Environmental Site Assessments, and Environmental and Habitat Assessments to satisfy City of Austin land development code. Records research for projects has included water well records, gas and oil well/pipeline records, soil and geology information, FEMA floodplain information, karst zone information, environmental agency database records, state and federally listed T/E species records, and wetlands information. Mr. Sherrod also contributes to Horizon's GIS mapping services in ArcView and AutoDesk Map 2007. He currently provides graphic support for Phase I Environmental Assessments, Section 404 jurisdictional delineations, and various other projects.
