## **Experience Summary**

Eugene Foster is a career professional in the fields of cultural resource management and environmental consulting with more than 28 years of experience assisting private- and public-sector clients in Texas and the United States. Through the course of his career, Mr. Foster has earned a reputation as a trusted consultant capable of providing real solutions to complex property development, public infrastructure, and regulatory compliance needs. As a Section 106 and NEPA regulatory compliance specialist, Mr. Foster has led dozens of cultural resource surveys and NRHP eligibility testing projects, major archeological and historical data recovery projects, as well as numerous alternative analyses in support of CEs, EAs, and EISs for electrical transmission lines, roadways, bridges, ports, airports, pipelines, reservoirs, power plants, mines, municipal utilities and urban redevelopment projects. In his role as a senior cultural resource manager and regulatory compliance specialist, Mr. Foster has extensive experience working directly with project clients, engineers, architects, planners, and agency staff while directing his own staff and providing quality control/quality assurance for all types of technical and scientific reports.
