Experience Summary

Mr. Owens is an accomplished cultural resources professional with more than 25 years of experience in archeological fieldwork, research and analysis, and cultural resources management. He is an adept principal investigator and project manager, proficient at managing suites of turnkey, fast-turnaround projects as well as multidisciplinary, long-term research projects. He is fully versed in historic and environmental preservation laws, assessing the National Register eligibility of cultural resources, and developing management plans for historic properties.

Mr. Owens has planned, implemented, and successfully completed cultural resources survey, testing, and data recovery projects in Alabama, Arizona, Arkansas, Illinois, Louisiana, Mississippi, Missouri, New Jersey, New Mexico, New York, Oklahoma, Pennsylvania, and Texas. He has completed hundreds of projects for a broad range of clients in the public and private sectors, including oil and gas exploration, development, and transportation; coastal and inland residential, commercial, and industrial land development; solid waste landfills; municipal planning; reservoir development; coastal port and channel improvements; transportation infrastructure; water and wastewater transportation and treatment; electricity generation and transportation; and university research.
